FY 2020 Highlights

ASM SEP 2020

AFT's success founded on 130+ OTC and Rx products

AFT's product portfolio is strong in the pain, eyecare, vitamins and supplements, allergy, gastrointestinal health, dermatology and hospital categories.

Maxigesic is gaining traction globally

US\$440m*

Sales potential of Maxigesic IV in Western Europe, Japan and the US

125+

Territories in which Maxigesic in various dose forms is licensed

28

Territories in which Maxigesic tablets were sold in FY2020, up from 20 a year earlier

Capital restructure increases AFT's investor appeal

- Bank debt refinanced at New Zealand commercial rates
- Capital raising to reduce debt and increase free cash flow and give flexibility to invest
- CRG and Atkinson sale and share issue sees new institutions and many Australian investors join the share register
- Simplified capital structure with conversion of preference shares
- Targeting debt of circa \$25 million and will then consider dividend policy.

AFT's governance continues to evolve

- CRG share sale precipitated the departure of Nate Hukill as director of the company
- AFT is grateful to CRG and Nate's longstanding support for the company
- A search is underway for a replacement Director with complementary skills
- AFT continues to develop relevant environmental and social factors into its governance framework

AFT has started the year well

- AFT is well supported by a strong board, management team and a committed crew
- We have faced significant challenges in the last year but the whole team has worked well together and deserve thanks from shareholders
- AFT is now in a stronger position than we have ever been and expect continued growth in Australasia and internationally
- Expect operating profits to rise by 23% to 58% to between \$14 million and \$18 million, ahead of any licensing fees for new agreements
